What has helped to make possible the financing of France's part in the war is the wonderful thriftiness of every person in the Republic. This same thrift will be the means of rebuilding France after war is over.
There is a lesson here that we can take into our own lives.

HARBOR BOARD SHOWS RESPECT FOR M'STOCKER

The following resolution of appreciation of the late Frank B. McStocker, who died last week, was adopted by the board of harbor commissioners at its meeting this morning:
"Resolved that, Whereas it has pleased Almighty God to remove from our midst our fellow member of the Board of Harbor Commissioners of the Territory of Hawaii, Frank B. McStocker;
"Now, therefore, we, the chairman and members of the said Board of Harbor Commissioners, desire to place on permanent record our deep sense of appreciation of the valuable services rendered to the Territory of Hawaii by Frank B. McStocker in the capacity of harbor commissioner; so long as his health permitted he pursued his duties with rare devotion and ability; and with unswerving purpose sought only the good of his country which he felt it an honor and a privilege to serve. In expressing in a slight degree our esteem of his many fine qualities of character, and the value of his work with us, it brings to our hearts a real sense of the loss sustained by his wife and family, and we desire to convey to them our deepest sympathy in their bereavement.
"And be it further resolved, that this recognition of the public service rendered to the Territory of Hawaii by Frank B. McStocker be spread upon the permanent records of the Board of Harbor Commissioners and that a copy of same be delivered to his family, and also a copy to the Governor of the Territory, Lucius E. Pinkham, Esquire."
The board this morning reconsidered the plans for the proposed highway from Waialua to the new Kulo bay wharf at Hilo, authorizing tenders to be called for a roadway 60 feet in width with a 40-foot roadbed.
A communication from the governor was read concerning with the commission in its position that it would not be advisable to permit the private control of traction privileges along the Honolulu waterfront.
Contractor A. A. Wilson was accorded an extension of time to October 15, in which to complete his repair work on the Kibei wharf. Harbormaster Mosher of Hilo submitted two reports showing that a vessel of the Matson line and one of the A-H line had made use of the Kulo bay pier recently and found no difficulty in going to and from the wharf or in resting safely there throughout their loading and unloading operations.

EFFICIENCY IS DECLARED FOR BY CONVENTION

Returning delegates from the Civic Convention at Waialua declare that one of the most significant acts of the entire session was the stand taken for efficiency in public work by the adoption of a good roads resolution with a civil service clause in it.
In adopting this resolution unanimously, after a lively discussion over the inclusion of the civil service clause, the convention recognized that the time has come in Hawaii when efficiency must be made an issue, whether it results in temporary loss or not. The delegates say that the convention by its action indicates plainly and emphatically to candidates for office that the issue of efficiency is a live one in this campaign.
The good roads resolution, outlining a plan for a new territorial road system, originally contained a civil service clause providing that appointment of employees on these territorial roads should be under civil service. This clause was cut out in the resolutions committee, it being felt by some members that for political reasons it would be hard to get the necessary act through the legislature with a civil service clause in it. From a political standpoint, it was stated, there would be much opposition in the legislature because for many years road-work and politics have been tied up together and the politicians see the advantage of having road-work as far as possible under their control and not handed under any civil service regulations.
But when the convention got to discussing the resolution, the point was made that the real issue in Hawaiian government now is efficiency and that whether there would be opposition to this civil service plan in the legislature or not, the convention should endorse it because it made for efficiency. In the end the convention by a unanimous vote adopted the resolution with the civil service clause left in it and the legislature will be asked to pass an act accordingly.

\$1,000,000 TO MEXICO IN CUSTOMS DUTIES

(By Latest Mail.)
WASHINGTON.—As a result of American administration of the Vera Cruz customs office, the Carranza government will receive a cash balance of more than \$1,000,000. General Huerta had pledged the customs receipts as security for a loan obtained in France, but officials here take the view that the United States should turn the money over to the government in Mexico City, leaving it to that authority to determine its disposition. The gross customs receipts up to August 29 were \$1,800,000, from which was deducted about \$690,000 for customs administration and the maintenance of quarantine, lighthouse, pilot service and part of the postal service.
